## HEAVY DUTY DEGREASER

### Description:

The renewed Airlube Heavy Duty Degreaser is a fully plant-based industrial degreaser.

This unique formula effortlessly eliminates the most stubborn fat! From grease encrusted on the bicycle chain to a heavily soiled engine block, the Heavy Duty Degreaser will solve it. The recipe of this great degreaser has been completely changed, which means that it is now easy to rinse and does not leave a greasy layer. In addition, the Airlube Heavy Duty Degreaser is free of danger symbols, h- and p-phrases! So, in short, a real must-have.

Like other Airlube products, the Heavy Duty Degreaser is biodegradable. The packaging is also fully recyclable.

### Application:

Degreasing of heavily soiled metal parts.

### Instructions:

Spray the part with Airlube Heavy Duty Degreaser. Let it work for a few minutes. Brush off the part. Then rinse with water. When Heavy Duty Degreaser has gotten on the paint, rinse it with water and then dry with a cloth.
