## SUPER WASH

### Description:

Airolube Super Wash is a plant-based bicycle and car shampoo for cleaning paints.

The natural formula effortlessly cleans grease and dirt. In addition, the Super Wash ensures a flawless and streak-free result after use.

Super Wash, like other Airolube products, is biodegradable. The packaging is also completely recyclable.

### Application:

Cleaning of paintwork of cars, motorcycles, bicycles, etc.

### Instructions:

Mix 10ml Airolube Super Wash per 1L of warm to hot water. Apply with a cloth or sponge over the surface to be cleaned. After use, rinse the sponge or cloth in a bucket of clear water before dipping in the bucket with Super Wash. After the entire surface has been cleaned, rinse the car with cold water. Use Airolube Demi Water for an optimal rinse without limescale stains.
