## BUMPER & PLASTIC CONDITIONER

### Description:

Airolube Bumper & Plastic Conditioner is a plant-based formula for upgrading weathered plastic surfaces.

The unique wax formula is particularly effective against dullness and drying of the plastic. Airolube Bumper & Plastic Conditioner nourishes the plastic deep into the fibers, so that the plastic regains its showroom look.

Bumper & Plastic Conditioner, like other Airolube products, is biodegradable. The packaging is also fully recyclable.

### Application:

Conditioning of plastic parts of car, motorcycle, bus, truck, etc.

### Instructions:

Add the Bumper & Plastic Conditioner to a paper or cloth towel. Then polish the surface to be conditioned. For heavily weathered parts, repeat the treatment several times for optimal results.

The content of this document is intended to enable the reader to orientate himself on the properties and possible applications of products produced under the labels of Airogroup BV. The analysis data mentioned in this product data sheet are typical values. Small deviations, which can occur during the normal manufacturing process of the product, will not affect the quality of the product. Although this text has been compiled with great care, the compiler accepts no liability for damage resulting from incompleteness and/or inaccuracies in the text. The reader is advised the final product choice in consultation with the supplier.
