ANTI ODOUR GEAR REFRESHER

Description:

Airolube Anti Odor Gear Resresher is a probiotic and plant-based formula for refreshing clothing and sports equipment.

Anti Odor Gear Refresher has been specially developed for all types of sports equipment that is difficult to keep clean and fresh, for example because they are not suitable for the washing machine. The natural odor remover does away with bad odors and leaves behind a subtle lavender scent. The formula is suitable for gloves, shoes, body protectors and helmets, among other things.

Like all other Airolube products, the Anti Odor Gear Refresher is also biodegradable. In addition, the packaging is also completely recyclable.

Application:

Odor eliminator and freshener for clothing and sports equipment.

Instructions:

Spray the surface to be refreshed with Anti Odor Gear Refresher. Then let the formula air dry.
