WHEEL CLEANER

Description:

Airlube Wheel Cleaner is a plant-based cleaner for alloy wheels.

The natural formula of the Airlube Wheel Cleaner removes brake dust, grease and dirt with the greatest of ease. Easy to apply and immediate results.

Like all other Airlube products, the Wheel Cleaner is also biodegradable. The packaging is also fully recyclable.

Application:

Cleaning of light metal and aluminum rims.

Instructions:

Spray the rim with Wheel Cleaner until the rim is covered with foam. Brush out the foam with a brush. Let the formula act for 5 minutes. Finally, rinse the rim thoroughly with water.
