

LEATHER PROTECT

Physical properties:

Color	Transparant
Appearance	Liquid
Available volumes	200ml / 500ml

Description:

Airolube Leather Protect is a plant-based impregnation agent for protecting leather coverings.

The unique formula does not give the adhesion of dirt and moisture to leather coverings a chance. At the same time, it ensures that the leather can continue to breathe and thus retain its flexibility and quality. Airolube Leather Protect is easy to apply.

Like other Airolube products, Leather Protect is biodegradable. The formula contains no harmful solvents. The packaging is fully recyclable.

Application:

Protecting and conditioning Leather upholstery and clothing.

Instructions:

Spray the surface generously with Airolube Leather Protect. Brush the formula in well, using a clean microfibre or cotton cloth. Allow the treated surface to dry thoroughly for 2 to 3 hours. The formula penetrates deeply into the leather for optimal protection. For optimal protection, repeat the treatment periodically.

The content of this document is intended to enable the reader to orientate himself on the properties and possible applications of products produced under the labels of Airogroup BV. The analysis data mentioned in this product data sheet are typical values. Small deviations, which can occur during the normal manufacturing process of the product, will not affect the quality of the product. Although this text has been compiled with great care, the compiler accepts no liability for damage resulting from incompleteness and/or inaccuracies in the text. The reader is advised the final product choice in consultation with the supplier.
